

**Porous Public Space:  
Climate Adaptation through Public Space Design for Capitol Hill,  
Seattle 2030 District**  
Scan I Design Master Studio, Autumn 2019 [Larch 501]

**PROJECT 02: Studio Photo Themes**

DUE: 1pm, Oct. 4 - uploaded

A thematic photo bank from our experiences in Denmark and Sweden will be useful in illustrating and mapping design ideas, inspiring the Capitol Hill Community, and reinforcing examples and learning from our study tour.

For this project, use the Google shared album for our studio (<https://photos.app.goo.gl/wLuk5zWYqHgycXE7>) to upload at least 16 photos that you think could serve as planning and design examples for Capitol Hill and other urban nature projects. Google does some automatic tagging, but we'd like some more specific terminology. **Please add relevant key words to the description in your google photos.** (You unfortunately can't add the description in the shared album, it has to be on the photo in your account and it will then show up in the shared)

- Soft Edges
- Layering (functional, cultural, temporal, spatial, hydrological, etc.)
- Community/commercial vibrancy
- Water
- Climate
- Urban Nature
- Inclusivity
- Living Surfaces
- Delight
- Play
- Sensory (sound, texture, olfactory, etc.)
- Social Amenity
- Mobility
- Temporary activation
- add your own...

We will show these during our Fika with our guests on Friday!
